SUMMARY

Aspiring AI & ML Engineer – Strong foundation in Python, core ML concepts, web development, and data preprocessing; skilled in model evaluation and analytical problem-solving; motivated to learn advanced AI technologies and build practical, real-world solutions.

EXPERIENCE

ML Intern

Cognifyz Technologies

Worked on real-world ML tasks involving data preprocessing, model development, and performance optimization, contributing to automation and analytics solutions.

EDUCATION

Sri Shakthi Institute of Engineering and Technology

B.Tech in Artificial Intelligence and Machine Learning

🎓 CGPA: 7.37

Little Flower Matriculation Higher Secondary School

in Higher Secondary Leaving Certificate | 82 %

PROJECTS

Cyber Forensic Toolkit

Oct 2025 – Nov 2025

Developed an AI-driven system to analyze high-risk URLs, emails, and PCAP files using ML-based threat detection and Achieved an Accuracy of 95%.

Multi-Organ Disease Detector

Mar 2025 – Apr 2025

Built deep learning–based classifier for multi-organ abnormality prediction and Achieved an accuracy score of 89 %.

SKILLS

- Frontend: HTML, CSS, Javascript, React, React Native
- Backend: Python , Flask, FastAPI
- Databases : PostgreSQL , MySQL, SQLite
- Frameworks & Libraries: Pytorch , Tensorflow , OpenCV, Streamlit
- Tools & Platforms: Github, V S Code , PyCharm , Google Colab
- M L & D L : Hyperparameter Tunning, CI/CD , Data Preprocessing, Github Actions, Image Preprocessing

CERTIFICATIONS

Technical Certifications:

- Prompt Engineering – AWS • Database Management – Udemy • AI for Leadership – Udemy

Achievements:

- Zonal Handball Tournament – Winners 2023,2024,2025
- Interzonal Handball Tournament – Runners 2023,2024
- Bharatiya Antariksh Hackathon – Participant
